The Lewis Peonies

Descriptive Price List

MRS. JOHN M. LEWIS
PEONY FARM
COPENHAGEN, N. Y.

1927

U. S. DEPARTMENT OF AGRICULTURE,

The Lewis Peonies

Copenhagen, N. Y.

DESCRIPTIVE PRICE LIST

The Lewis Peonies are strong, vigorous stock, including new varieties that have been tested for a number of years, free bloomers showing a wide range of beautiful tints and colors, from pure white to the darkest shades of ox-blood red.

Peonies should be planted on well drained soil, free from shade at least half of the day; open sunlight being an advantage. They should be kept well cultivated and no fertilizer placed in direct contact with the roots.

The eyes should be about two inches below the surface of the ground and mulching put on the first winter AFTER the ground freezes.

The prices quoted are for strong 3 to 5 eye divisions or plants of equal value, from healthy stock and true to name.

A discount of 10% on orders of \$25.00 or over.

Terms, cash with order—Packing free.

ABBE (Lewis)—Jap. Medium height. Very free bloomer. Deep rose. Full ruffled center. Edges tinged with yellow-----3.50

Collection of 6 plants, my selection \$3.00

UNITED STATES DEPARTMENT OF AGRICULTURE
BUREAU OF PLANT INDUSTRY
WASHINGTON

HORTICULTURE

January 12, 1927

Mrs. John M. Lewis,
Copenhagen, N. Y.

Dear Sir:

The United States Department of Agriculture has, for many years, been making a collection of catalogs and other trade publications of firms and individuals engaged in the nursery and seed industries. This collection is preserved and permanently filed as a part of the Department Library, where it renders an essential service in the investigations of the Bureau of Plant Industry concerning the history, nomenclature, description, and distribution of the different varieties of fruits, vegetables, and ornamentals.

We will greatly appreciate the favor if you will send us your trade lists for the current year, including special announcements of new varieties of fruits, vegetables, or ornamentals being introduced by you.

We enclose a gummed address label for your convenience in sending the publications.

Very truly yours,

L. C. Corbett

Senior Horticulturist in Charge.

(L. C. Corbett)

I made no new introductions in 1926 but distributed the first of last 1926's "Ella Lewis" and "Lewis" to Mrs. John M. Lewis.

BUREAU OF PLANT INDUSTRY,
Horticultural Investigations.
